ANDREWS

Hand Therapy

Hand Therapy is a specialized area of Occupational Therapy that consists of treating injuries affecting the upper extremity, which includes the shoulder, arm, elbow, wrist, and hand.

Our occupational therapists collaborate with surgeons and physicians to identify the best form of treatment based on each patient's unique situation.

Through various therapeutic techniques, our team aims to restore individuals to their optimal level of functionality. Our goal is to help every patient achieve Victory Over Injury.

COMMON CONDITIONS TREATED

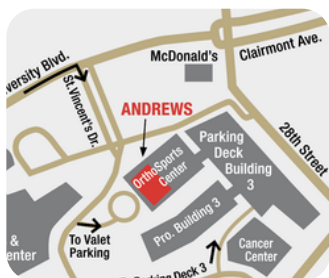

- Arthritis & Joint Pain
- Carpal Tunnel, Cubital Tunnel
- Other Nerve Compression Conditions
- Fractures & Dislocations
- Soft Tissue Injuries & Tendonitis
- Sports Injuries
- Trigger Finger

TREATMENT TECHNIQUES

- Bracing & Custom Splinting
- Dry Needling
- Exercise Programs
- Kinesiology Taping
- Physical Agent Modalities
- Post-Operative Care
- Scar & Swelling Management
